ENTREPRENEURSHIP

Welcoming fledgling entrepreneurs

A territory for startups

In November, 2014 Toulon welcomed its first Start-up Weekend at "Canteen by TVT innovation" venue. 80 participants met a major challenge: finding an idea and setting-up a startup within 54 hours.

About 150,000 tweets were sent on that occasion. Toulon can be proud of having been crowned the World champion of the Global Start-up Battle. The keyword *swtIn was among the 10 top keywords used on Twitter in France for several hours.

A rapidly expanding digital ecosystem

With 1,300 companies in the digital technology field - among which 47 % have been set-up over the last three years - and 1,200 students trained every year in multimedia jobs at the new University center Toulon offers a unique digital technology sector.

The business incubators of the territory

Several structures accompany entrepreneurs in their project of creation or development of activity and setting-up on Toulon territory. Cre@TVT Numérique, the business incubator of Toulon Var Technologies dedicated to the digital and multimedia sector is located in the city center of Toulon, on place Besagne. It offers a 700m² area.

A Digital Center in Chalucet area

A digital incubator (the "Digital Center") will be set-up by TPM urban community by 2018, at the heart of the future "district of knowledge and digital technology". Toulon Var Technologie will administrate the center.
