Cyber bases

Toulon City offers numerous places to stay connected in several districts.

How to stay connected to the internet, work in groups and print documents: Toulon City offers numerous places in several districts.

Cyber-bases offer access to the internet, on a punctual or regular basis, in autonomy or accompanied by specialists. Cyber-bases are equipped with computers, an internet connection and performing peripherals (printers, scanners, digital cameras, even tablets and digital camcoders). In every Cyber-base, you can be assisted in the creation of student or associative projects, for job search (Summer jobs forum, writing of your CV, printings) or for your collective projects. The House of the Student and the Point Cyb are also at your disposal and offer similar services.
