STUDENT

La maison de l'étudiant (The House of the Student)

Facilitating the integration of the students.

The city of Toulon gives students access to a structure meant to welcome and accompany them effectively throughout the academic year.

La maison de l'étudiant is a municipal service, situated at the heart of the city, intended to facilitate the integration of the students in our city and urban area and to develop an attractive student life, by offering:

Culture, outing spots, leisure, nautical or sporting activities.

Practical aspects: accommodation, transport, job search assistance by bringing together the local economic network, companies and students.

By definition, the word "Student" means the person registered to an establishment falling under the control of the Ministry of Higher education (university, preparatory class for joining Grandes Ecoles, BTS (two-year technical degree)).

In December, 2011 the status of "Étudiant des métiers" (Job-learning student) was created for block release students under 26 years-old completing an apprenticeship or a professionalization contract.

The team of the House of the Student has been taking care of this new category of students since 2012.

On the pages of this portal (intended only for Students) you will find the main information regarding your studies, accommodation, job search assistance, healthcare, careers advice and transportation.

Finally, La maison de l'étudiant team wishes a successful 2013-2014 school / academic year to all students.
